SOFTWARE ENGINEERING INTERN

Dynamic Front-End Web Developer with 3 years of experience in crafting responsive and user-centric web applications. Proficient in full-stack development, leveraging RESTful APIs and efficient database management to enhance functionality and performance. Passionate about delivering high-quality software solutions that meet user needs and contribute to overall project success. Seeking to leverage technical skills and innovative mindset in a Software Engineer Intern role.

PERSONAL EXPERIENCE

LessKnown (React Native)

Mar 2024 - Dec 2024

Mobile Developer

- Developed a secure authentication system that prevented unauthorized access and data leakage
- Optimized the mobile application for different devices and platforms, resulting in improved usability
- Developed an API that enabled the mobile application to communicate with the back end, resulting in a 6% reduction in latency

Smart Gym Companion (React.js, Express)

Feb 2025 - Present

Full-Stack Developer

- Collaborated alongside a team of developers to deliver an eccentric, quality front end for users.
- Built RESTful APIs using Express.js to process user requests and streamline data operation
- Integrated SQLite database for efficient data storage and retrieval, enabling users to log and track their activities

eCommerce Analysis (Python, PostgreSQL, MongoDB)

Feb 2025 - Present

Data Analyst

- Conducted comprehensive analysis of eCommerce dataset to identify purchasing trends and customer segments. Visualized findings to support business decision-making.
- Optimized dataset processing, improving runtime efficiency by 15%

EDUCATION

Bachelor of Science, East Carolina University
(May, 2026)

Major: Software Engineering

GPA: 3.4

Relevant Coursework:

Web Development

Database Management

Mobile Computing

Big Data Analytics
